

EU-India Webinar on Energy Storage

28 October 2020

Introduction to the EU-India CECP

Edwin Koekkoek - Counsellor on Energy and Climate Action
Delegation of the European Union to India

Clean Energy and Climate Partnership

- **Interests converge strongly:** energy security, less dependence on external energy suppliers, focus on energy efficiency, renewable energy and integration to the grid + strongly committed to implementing the Paris Agreement
- CECP agreed at 2016 EU-India Summit; reconfirmed in 2017
- The **2020 EU-India Summit** agreed to strengthen the CECP stating inter alia that on energy, it should focus on cooperation in EE and in RE, including its integration in the energy system.

Clean Energy and Climate Partnership

- EU-India Technical Cooperation Project - www.pvrooftop.in
- Clean Energy Cooperation with India (CECI) - (www.cecp-eu.in)
 - Solar parks
 - Energy efficiency buildings (ECBC code)
 - Offshore wind energy
- **Clean Energy and Climate Partnership project** - (www.cecp-eu.in)
Dialogue between GoI-EU, EU Member States, EU-Indian researchers, businesses:
 - Energy efficiency buildings
 - Renewable energy - solar (including recycling), offshore wind
 - **RE grid integration - smart grids - storage**
 - Cooling / cold chain
 - Sustainable finance / climate proofing

Clean Energy and Climate Partnership

Cooperation within inter alia:

- The International Solar Alliance;
- The International Platform on Sustainable Finance;
- The Coalition for Disaster Resilient Infrastructure;
- Leadership Group for Industry Transition (LeadIT);
- Mission Innovation.

Thank you for your kind attention

Clean Energy and Climate Partnership
